Traulsen

FULL LINE CATALOG FOODSERVICE

HOBART, WHERE EQUIPMENT AND SERVICE JOIN TOGETHER IN SUPPORT OF YOU.

Hobart makes a full line of equipment for the foodservice industry, including cooking, food machines, commercial dishwashers, Traulsen refrigeration and Baxter cooking & baking. We support our customers when and where it counts the most. In the field, at your place. With a nationwide network of service locations and technicians across the country, we're always nearby to install, maintain and service your equipment.

OUR SUPPORT STARTS WITH HOBART RELIABILITY.

Hobart reliability starts at the beginning, with continuous analysis and testing of the raw materials used in both design and production. Each component of newly designed equipment is put through extensive testing. Throughout the manufacturing process, every Hobart product undergoes a series of systematic inspection checks to assure dependable and efficient operation.

INNOVATION TO SUPPORT YOUR FUTURE.

Hobart's award-winning, innovative food equipment supports you with new ways to help you improve product consistency, increase productivity, lower cost of ownership and help create a safe working environment.

EMPLOYEE TRAINING. ANOTHER SIGN OF OUR SUPPORT.

We can help you get your staff up and running quickly on our equipment. All our equipment comes with easy-to-follow training support. Some come with video instructions. We can also arrange for operator training programs at your business site(s) or work with your training staff to help set up programs.

YOUR HOBART DEALER.

Your closest point of support is usually your authorized Hobart foodservice equipment dealer. An authoritative source of information about Hobart and the foodservice industry, your dealer can help you select the Hobart equipment that best addresses your needs. To find the Hobart dealer nearest you, visit www.hobartcorp.com.

SUSTAINABILITY.

We are committed to supporting your sustainability initiatives with LEED accredited professionals on staff. Collectively, Hobart, Traulsen and Baxter are proud recipients of the ENERGY STAR® Partner of the Year Award since 2008—including the Sustained Excellence Award since 2010.

CONSULTANT SUPPORT.

Our representatives will work closely with your consultant, providing the latest information on new products, cost-saving analyses, up-to-date specifications and performance data on all Hobart equipment.

With every piece of Hobart, Traulsen and Baxter equipment, you get our unique support network. For more information, go to www.hobartcorp.com or call 1-888-4HOBART.

WEIGHING SYSTEMS – SERVICE SCALE HTi, HTx & HTs

Listed by UL, Certified by NSF, NTEP

HTi-7LS / HTs-7Ls / HTx-7LS

*HTi-7LS / HTs-7Ls / HTx-7LS
Customer Display*

HTi & HTx STANDARD FEATURES

- Video capability allowing independent videos to play on operator and customer displays simultaneously.
- Intuitive and customizable graphical user interface.
- Built-in wireless and wired Ethernet standard.
- Best seller keys by scale/department.
- Search database by description, key word or PLU number.
- Swipe between three screens for operator ease of use.
- Flashkeys can be laid out by categories or groups.
- Product shelf life by days or hours.
- Operator, product, and/or recipe notes.
- Onscreen operator manual and tutorial videos.
- COOL (country of origin labeling) can be created and modified on the scale.
- Ability to require operator login.
- Label graphics visible in supervisor mode.
- Extensive scale backup in supervisor mode.
- System can estimate number of additional records that may be added to the scale.
- Default values for the four types of products; Fixed Weight, By Count, Random Weight, and Fluid Ounces.
- UPC, EAN 13, EAN 128 Barcodes and GS1 DataBar.
- Onscreen alphanumeric keyboard and keypad.
- Cassette label loading system provides fast and efficient change of label stock.
- Meets federal labeling requirements.
- Track operator changes.
- Remotely access the scale using Hobart specific software.

HTs STANDARD FEATURES

- Video playback on operator display.
- Intuitive and customizable graphical user interface.
- Best seller keys by scale/department.
- Search database by description, key word or PLU number.
- Swipe between screens for operator ease of use.
- Flashkeys can be laid out by categories or groups.
- Product shelf life by days or hours.
- Operator, product, and/or recipe notes.
- Onscreen operator manual and tutorial videos.
- COOL (country of origin labeling) can be created and modified on the scale.
- Ability to require operator login.
- Label graphics visible in supervisor mode.
- Extensive scale backup in supervisor mode.
- System can estimate number of additional records that may be added to the scale.
- Default values for the four types of products; Fixed Weight, By Count, Random Weight, and Fluid Ounces.
- UPC, EAN 13, EAN 128 Barcodes and GS1 DataBar.
- Onscreen alphanumeric keyboard and keypad.
- Cassette label loading system provides fast and efficient change of label stock.
- Meets federal labeling requirements.
- Track operator changes.
- Remotely access the scale from your help desk.

WEIGHING SYSTEMS – SELF-SERVICE SCALE HTi Self-Service Scale with Large Elevated Display

Listed by UL, Certified by NTEP

STANDARD FEATURES

- Large elevated 14" touch screen display.
- Intuitive and customizable graphical user interface.
- Built-in wireless and wired Ethernet standard.
- Best seller keys.
- Search by image, description or PLU number.
- COOL (country of origin labeling).
- UPC, EAN 13, EAN 128 Barcodes and GS1 DataBar.
- Onscreen keypad.
- Cassette label loading system provides fast and efficient change of label stock.
- Meets federal labeling requirements.
- Remotely access the scale using Hobart specific software.
- Goes back to home page when not used for 30 seconds.
- Onscreen prompts for ease of use.

WEIGHING SYSTEMS – PRICE COMPUTING AND PORTION CONTROL SCALE PS40

Certified by NSF

PS40
Price Computing and Portion Control Scale

STANDARD FEATURES:

- Simple touch key operation.
- Bright operator and customer backlit displays.
- Audible beep response.
- 6V 4-amp rechargeable battery comes standard.
- Power cord comes standard.
- Up to 50 programmable speed keys.
- 30 lb. x .01 weighing.
- Weight/price/total price displayed to 6 digits.
- Small footprint – 13.9"W x 13"L x 4.9"H.
- NSF Certified and legal for trade.

WEIGHING SYSTEMS – DIGITAL SCALE HBR301

Certified by NTEP

STANDARD FEATURES:

- Easy-to-read display.
- Legal for trade.
- Battery power supply (4) D cell.
- Energy saver setting – set shutoff time to extend battery life.
- Low battery indicator.
- Check weighing.
- Batch weighing.
- Over and under weighing.
- Adjustable display head for easy viewing.
- Toggle between lb. and kg.
- Stainless steel platter.
- Tare indicator.
- Preset tare (package weight).
- Keyboard tare.
- Zero key.
- Stable weight indicator.
- Automatic zero tracking.
- AC/DC adapter.
- Leveling leg set.
- Leveling indicator.

HBR301-1

QUALITY AND VALUE YOU CAN SEE

The "Traulsen Difference" is much more than just a catchy advertising slogan. Rather it aptly sums up our overall philosophy of providing both high-quality and high ownership value in everything we do.

Let's face it, there are less expensive refrigerators and freezers on the market. However, only the refrigeration equipment works 24/7 in your kitchen, and has the ability to lose \$100's or \$1,000's of product in a single day. Then of course there is the inconvenience. If your refrigeration fails it upsets your entire operation, so this is no place for compromises.

Traulsen recognizes this, so we design and build our equipment to really deliver for you in all the vital areas of importance to your business. Durability and reliable operation are just the beginning. They also offer you the benefit of energy efficiency, large storage capacity, ease of use, long equipment life, and a host of value-added features.

But most of all they are designed for performance. After all, temperature maintenance and recovery are absolutely critical to both food safety and controlling food costs, which is what refrigeration is all about. In this we excel, that's why Traulsen has been the industry leader for seven decades and counting.

Refrigeration System

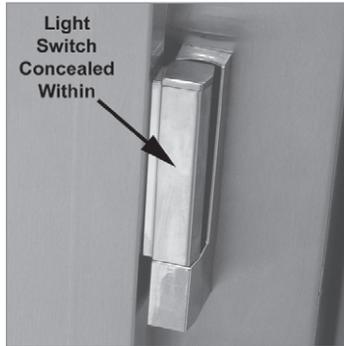

By combining carefully balanced, high quality components with precise microprocessor controls and careful construction, our systems cycle less often, and offers the energy efficiency you're looking for while still providing the outstanding reliability and performance your operation needs.

Easy to Use Controls

Traulsen uses "plug & play" microprocessor controls which have no moving parts, are much more precise than typical electromechanical controls, and replaces several of the most common failing parts (such as the time clock and temp control), providing far greater reliability.

Concealed Light Switches

Traulsen solid door models include the light switch concealed inside every door hinge (even on half-height door models). This operates the interior lights automatically whenever the door is opened, while also protecting the switch from damage during loading/unloading.

Interior Arrangements

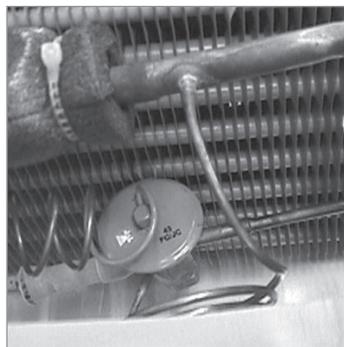

Each shelf has a rated capacity of 225 lbs. They span the entire inside width of the cabinet, are mounted on a pin system which does not require tools to remove, and don't ever need "junior" shelves between them. For convenience they are installed at the factory.

Condenser Cleaning

Cleaning the condenser coil is the single most important thing you can do to keep your refrigeration equipment operating efficiently. Traulsen locates this right behind the lift-up louver panel, facing front, making it so easy to clean this can be done in as little as a minute.

Metering Device

Use of a TXV allows for better temp recovery than possible with capillary tube designs. This is especially important during busy lunch and dinner periods where the doors are opened frequently. Your Traulsen will recover temperature quickly, keeping your food safe and minimizing shrink.

QUALITY AND VALUE YOU CAN SEE

Heating System

By using large, low watt-density heating elements combined with low velocity fans, Traulsen's hot food holding cabinets offer outstanding performance with limited temperature stratification, most are ENERGY STAR® certified for efficiency, start-up quickly and greatly reduce lifetime service costs.

Warranty Terms

Traulsen's 3-year warranty period begins at the time of **ACTUAL INSTALLATION**, regardless of time from shipment. This says that we stand behind our equipment, not hide behind the warranty. Most competitors have a clause limiting their standard warranty to 15-months from date of shipment.

Raised Metal Door Liner

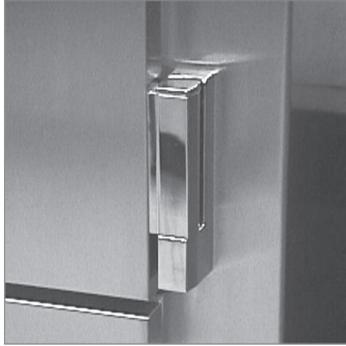

Much more durable than those made of plastic, they are unlikely to ever crack or break. Their raised design protects the gaskets from damage during loading and unloading. As a result the gaskets will likely have to be replaced less often than those of some other brands.

Metal Construction

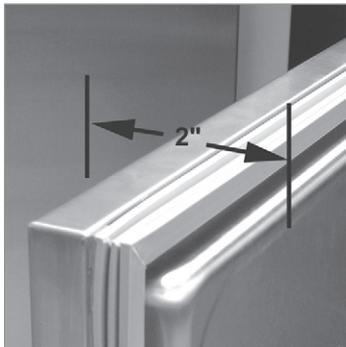

The doors are metal. The handles are metal. The breaker caps are metal. There is no plastic seam surrounding the doors or cabinet front perimeter. There is nothing but high quality metal used throughout.

Cam-Lift Hinge Design

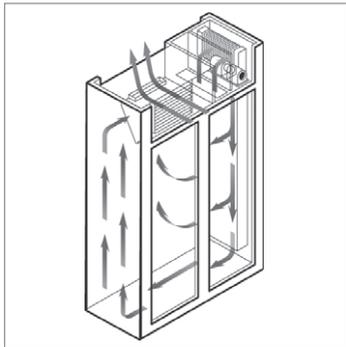

Traulsen uses cam-lift type door hinges. These self-close at up to 90°, have a stay-open feature past 120°, and can be opened past 180° without damage. They are heavy duty and include a lifetime warranty.

Insulation

Traulsen insulates the entire cabinet, including the doors, with at least 2" foamed in place insulation. Not only does this provide superior insulating characteristics, but it also adds significant strength to our already rugged design.

Air-Flow Pattern

Traulsen's clockwise air-flow pattern keeps cold air in and warm air out much better than back to front designs, which tend to spill cold air out on to the floor whenever opened. A key element is our rear biased return air-duct that protects the system from ingesting warm kitchen air whenever the door is opened.

Door Locks

Traulsen solid door units use only a sturdy cylinder type lock. The door lock catches upon a solid metal lock keeper mounted alongside, providing for a secure door closure. When any Traulsen door is locked closed, it stays closed!

REFRIGERATORS, FREEZERS

Reach-In Solid Door Models

STANDARD FEATURES:

- Stainless steel exterior front finish
- Stainless steel exterior door finish
- Anodized aluminum sides (including returns) and interior
- Microprocessor control with 3-digit LED temperature display
- 115/60/1 voltage, self-contained, with cord and plug attached (208-230/115V 3-section freezers) (remote options available)
- Automatically activated LED light with concealed switch
- -10°F freezer capability (freezers only)
- Self-closing doors with stay open feature and locks
- Easy to clean profile gasket
- Three epoxy coated shelves per section
- Four 6" high casters with brakes
- Automatic, non-electric condensate evaporator
- Lifetime warranty on door hinges & handles
- Three year parts & labor warranty
- Five year compressor warranty
- **All models meet DOE 2017**

REFRIGERATORS

Pass-Thru Solid Door & Glass Door Models

STANDARD FEATURES:

- High quality stainless steel exterior front and doors
- Corrosion resistant anodized aluminum one-piece sides
- Durable anodized aluminum interior
- Microprocessor control with LED temperature readout
- Top-mounted, balanced, self-contained refrigeration system
- Large high humidity evaporator coil outside the food zone
- Load-sure guard protects against improper loading
- Full or half length stainless steel doors with locks
- Self-closing doors with stay open feature at 120 degrees
- Guaranteed for life cam-lift hinges
- Guaranteed for life horizontal work flow door handles
- Automatically activated LED lights
- Damage resistant stainless steel breaker caps
- Three (3) adjustable epoxy coated shelves per section, supported on shelf pins (installed at the factory)
- Energy saving automatic non-electric condensate evaporator
- Magnetic snap-in EZ-Clean door gaskets
- Gasket-protecting anodized aluminum door liner
- Anti-condensate door perimeter heaters

G27017P

- Thermostatic expansion valve metering device provides quick refrigeration recovery times
- Stainless steel one-piece louver assembly
- 9' (2.7 m) NEMA cord & 5-15P plug attached
- Set of four (4) 6" (15 cm) high casters with locks
- Three year parts and labor warranty
- Five year compressor warranty
- **All models meet DOE 2017**

G SERIES – HEATED CABINETS

Reach-In & Pass-Thru

STANDARD FEATURES:

- Stainless steel exterior front finish
- Stainless steel exterior door finish
- Anodized aluminum sides (including returns) and interior
- Plug and play microprocessor control with 3-digit LED temp display
- Self-closing doors with stay open feature and locks
- Easy to clean profile gasket
- Three plated shelves per section
- Four 6" high casters with brakes
- Lifetime warranty on door hinges & handles
- Three year parts & labor warranty
- **All models meet DOE 2017**

G24300

Heating System

By using large, low watt-density heating elements combined with low velocity fans, Traulsen's hot food holding cabinets offer outstanding performance with no temperature stratification, are ENERGY STAR® certified for efficiency, start-up quickly and greatly reduce lifetime service costs.

Please refer to energystar.gov to view the most up-to-date product listing and performance data.

G - SERIES - ACCESSORY KITS

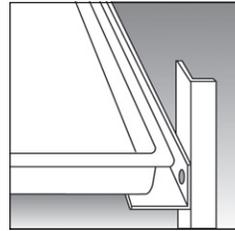

All G-Series accessory kits are pre-packaged for easy installation at the job site.

TRAY SLIDES:

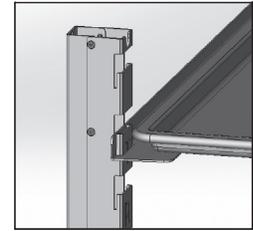

SPACING

#1 Tray Slides (Not available for 2 section G Heated)* 16 ga. stainless steel angle type for bottom support of: (1) 18" x 26" Pan or (2) 14" x 18" Pans	2"	3"	4"	5"
Behind full height door – all models	28	19	14	11
Behind upper half height door – all models	13	9	7	5
Behind lower half height door – all models	13	9	7	5

#1 Tray Slides – EZ-Change Interior (Not available for 2 section G Heated)*	2"	4"
Behind full height door – all models	26	13
Behind half height door – all models	12	6

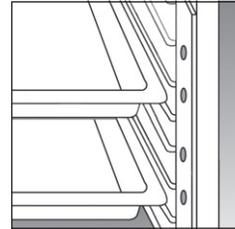

#1 Tray Slides Standard

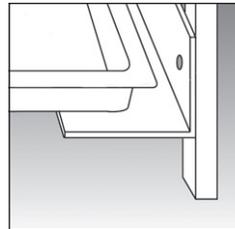

#1 Tray Slides EZ-Change

#4 Tray Slides – Standard (Not available for 2 section G Heated)* Plated steel rod type for rim support of: (1) 18" x 26" Pan (One pair of #4 tray slides accommodates one half section)	1-1/2"
Behind full height door – all models	38
Behind upper half height door – all models	18
Behind lower half height door – all models	18

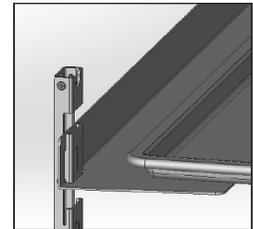

#4 Tray Slides Standard

Universal Tray Slides – Standard* 16 ga. stainless steel angle type for bottom support of: (1) 18" x 26" Pan or (2) 14" x 18" Pans or (2) 12" x 20" Pans (R&A heated cabinets: decrease qty by 1; not available for G 2 section heated cabinets & D/K width models)	4"	5"	6"
Behind full height door – all models	14	11	9
Behind upper half height door – all models	6	5	4
Behind lower half height door – all models	7	5	4

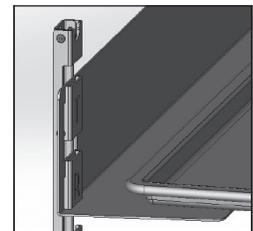

Universal Tray Slides Standard

Universal Tray Slides EZ-Change

Universal Tray Slides – EZ-Change Interior (Not available for 2 section G Heated)	2-1/4"	4-1/2"
Behind full height door – all models	22	11
Behind half height door – all models	11	5

Heavy-Duty Universal Tray Slides – EZ-Change Interior (Not available for 2 section G Heated)*	4-1/2"	9"
Behind full height door – all models	11	5
Behind half height door – all models	5	2

Heavy-Duty Universal Tray Slides EZ-Change

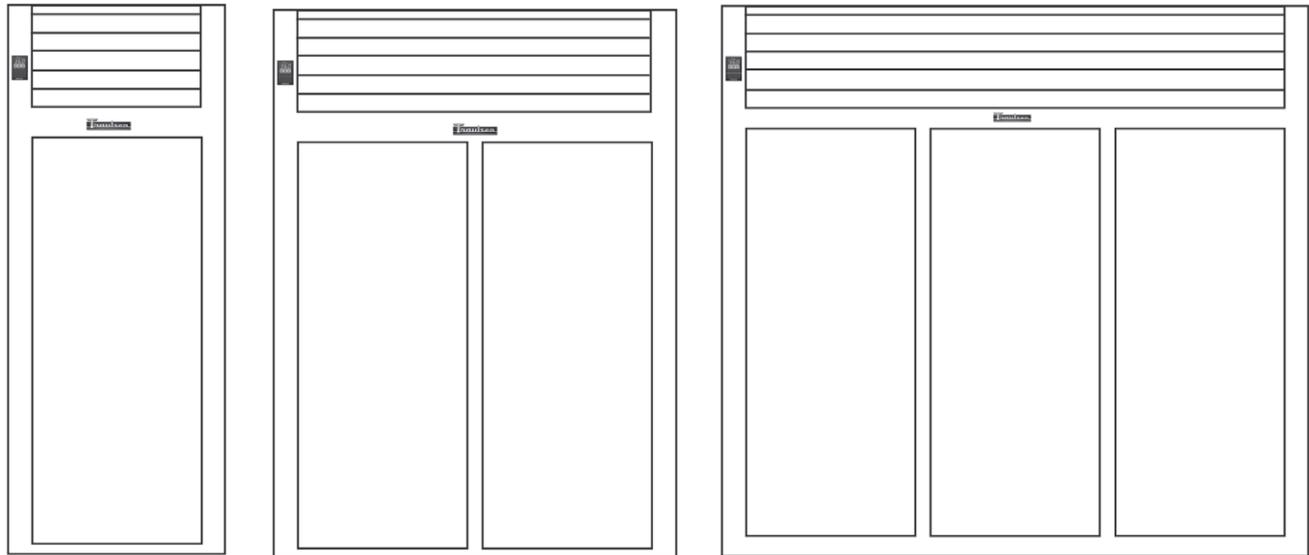

SHELVES:

Capacity	Std.	Max.
Behind full height door mounted on standard shelf pins	3	9
Behind half height door mounted on standard shelf pins	3	8
Behind full height door mounted on optional pilasters	3	13 (4" spacing)
Behind half height door mounted on optional pilasters	3	12 (4" spacing)

Notes:

- For all after market parts call Traulsen parts department 800-825-8220.
- The above quantities represent the maximum amount of tray slides recommended by Traulsen to achieve best air circulation and refrigeration performance.
- Optional tray slides are not available for Compact Undercounter, and Prep Tables models
- EZ-Change Interior Universal Tray Slides max weight 75 lbs. EZ-Change Heavy Duty Universal Tray Slides max weight 125 lbs.*
- #1 and #4 Tray slides are not available for 2 section G Series heated cabinets.*

OTHER ACCESSORY KITS	
GSACC-#1TS	1 Pair #1 Type Tray Slides
GSACC-#4TS	1 Pair #4 Type Tray Slides
GSACC-UVTS	1 Pair Universal Type Tray Slides
GSACC-PLSTS	Mounting Hardware for Shelves on Pilasters & Clips**
GSACC-LEGS	Set of Four 6" High Legs
GSACC-CK3	Set of Four 4 ⁵ / ₈ " High Casters

** Includes the mounting hardware only to allow the use of the existing shelving to replace the standard shelf pin arrangement of any model/section G-Series unit to have pilasters and clips instead.

REFRIGERATORS, FREEZERS, HOT FOOD CABINETS, DUAL TEMPS Reach-In Solid Door Models

STANDARD FEATURES:

- Stainless steel exterior
- Stainless steel interior (R-Series)
- Anodized aluminum interior (A-Series)
- Microprocessor control
- Self-contained, balanced refrigeration system (refrigerators & freezers) (remote options available)
- Environmentally friendly R-134a (refrigerators) and R-404a (freezers) refrigerant
- Standard operating temperature 34°F to 38°F (refrigerators), 0°F to -5°F (freezers), 135°F to 180°F (hot food cabinets)
- Self-closing doors with stay open feature
- Easy to clean profile gasket
- -10°F high capacity freezer application for high demand application
- Lifetime warranty on cam-lift hinges
- Automatic non-electric condensate evaporator (refrigerators & freezers)
- Three plated shelves per section
- Automatically activated LED lights
- Lifetime warranty on work flow door handle
- Stainless steel breaker caps
- Four 6" high adjustable stainless steel legs
- Remote Glycol applications (refrigerator & freezer only, consult factory)
- Wine temperature application option (dual temps, "W" & "N" width models only)
- Lifetime warranty on door hinges & handles
- Three year parts & labor warranty
- Five year compressor warranty
- **All models meet DOE 2017**

REFRIGERATORS, FREEZERS

Compact Undercounter Models

STANDARD FEATURES:

- Stainless steel exterior front, top, sides and door(s)
- Anodized aluminum interior
- Interior mounted thermometer
- 115/60/1 voltage, self-contained, with cord and plug attached
- Self-closing door(s) with stay open feature
- Easy to clean profile gasket (coming in 2014)
- Two powder-coated shelves per door
- 4" high casters
- Automatic, non-electric condensate evaporator
- Three year parts & labor warranty
- Five year compressor warranty
- **All models meet DOE 2017**

REFRIGERATORS

Compact Prep Table Models

STANDARD FEATURES:

- Stainless steel exterior front, sides and door(s)
- Stainless steel pan cover with pivoting front lid
- Full compliment of sixth size 4" deep plastic pans and divider bars included
- Reversible, full-length nylon cutting board
- 6" deep pan capacity
- Anodized aluminum interior
- Interior mounted thermometer
- Meets NSF 7 Standard for prep tables
- 115/60/1 voltage, self-contained, with cord and plug attached
- Self-closing door(s) with stay open feature
- Easy to clean profile gasket (coming in 2014)
- Two powder coated shelves per door
- 4" high casters
- Automatic non-electric condensate evaporator
- Three year parts & labor warranty
- Five year compressor warranty
- **All models meet DOE 2017**

RMC SERIES – MILK COOLERS

34", 49" & 58" Length

STANDARD FEATURES:

- Stainless steel exterior and interior
- Top mounted removable self-contained refrigeration system
- Forced air refrigeration system
- Accommodates 13" x 13" crate(s) 8, 12 or 16 capacity or 13" x 18" crate(s) 4, 6 or 8 capacity
- Single or double access models
- Sliding lift up and down door(s)
- Reinforced cabinet exterior bottom with dunnage rack
- Lockable insulated doors
- Metal door handles
- Magnetic snap-in EZ-Clean door gasket(s)
- 8' cord and plug attached
- Set of four (4) 6" or 4" factory mounted adjustable casters (6 for 58" models)
- Three year parts & labor warranty
- Five year compressor warranty
- **All models meet DOE 2017**

REFRIGERATORS

Full Size Undercounter Models

STANDARD FEATURES:

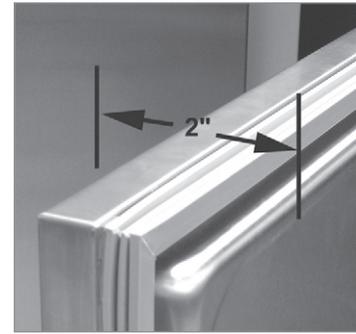

- Stainless steel front, door(s) and interior
- Microprocessor control
- Self-contained balanced refrigeration system (remote options available)
- Environmentally friendly R-134a refrigerant
- Standard operating temperature 34°F to 38°F
- Automatic, condensate evaporator
- Two plated shelves per section
- Easy to clean profile gasket and magnetic snap-in door gaskets
- 6" high adjustable stainless steel legs

TU072HT
shown with optional top and casters

- Glycol Application – remote glycol refrigeration application and self-contained glycol or water cooled freezer application options
- Three year parts & labor warranty
- Five year compressor warranty
- **All models meet DOE 2017**

Insulation

Traulsen insulates the entire cabinet, including the doors, with at least 2" foamed in place insulation. Not only does this provide superior insulating characteristics (total R-Factor 12.5), but it also adds significant strength to our already rugged design.

FULL SIZE UNDERCOUNTER MODELS

LENGTH x DEPTH* x HEIGHT	NUMBER DOORS	REFRIGERATORS
44" x 34" x 34"	1	TU044HT
72" x 34" x 34"	2	TU072HT
100" x 34" x 34"	3	TU100HT

*Standard rear spacer bracket adds 2" to depth

Please refer to energystar.gov to view the most up-to-date product listing and performance data.

REFRIGERATORS

Equipment Stand Models

STANDARD FEATURES:

- Stainless steel exterior and interior
- Stainless steel Marine top
- Microprocessor control
- Self-contained balanced refrigeration system (remote options available)
- Environmentally friendly R-404a refrigerant
- Standard operating temperature 34°F to 38°F
- Automatic, condensate evaporator
- Self-closing drawers with stay open feature
- Easy to clean profile gasket
- Accommodates 400 lbs. per section
- Each drawer accommodates 6" deep pans
- 4" high casters
- Glycol Application – self-contained glycol or water cooled refrigerator application options
- Three year parts & labor warranty
- Five year compressor warranty
- **All models meet DOE 2017**

REFRIGERATORS

Full Size Prep Table Models

STANDARD FEATURES:

- Stainless steel exterior and interior
- 115/60/1 voltage, self-contained, with cord and plug attached (remote options available)
- Microprocessor control
- Accommodates industry standard full and third size pans without the use of adapter bars
- Two (2) shelves per door
- 6" high casters on adjustable channel mounting system
- All doors provided with locks
- Left hand system only
- Self-closing door(s) with stay open feature
- Easy to clean profile gasket
- Temperature rail equipped with drain and flush valve
- Automatic non-electric condensate evaporator
- Three year parts & labor warranty
- Five year compressor warranty
- **All models meet DOE 2017**

CUSTOMIZE YOUR TRAUlsen FULL SIZE PREP TABLE WITH ONE OR MORE OF OUR MANY ACCESSORIES

Ambient Pan Holder

Garnish Rack

Scale Shelf

Cutting Board & Ticket Rail

"All-Day" Temperature Performance to NSF7 Test Requirements

Traulsen's full size prep table is equipped with TempAssure, a specially engineered forced air design which circulates cold air around and underneath the pans as well as lofting a protective blanket over the food surface, effectively insulating it from warm kitchen air.

FULL SIZE PREP TABLES – GLYCOL 46", 60", 65", 71", 91" & 113" Wide Models

STANDARD FEATURES:

- Glycol system exceeds NSF requirements by maintaining food at or below 39° using specified 8" deep pans
- Stainless steel exterior & interior finish
- 115/60/1 self-contained system
- Horizontal finned T6 anodized chiller plates, holds 1/3, 1/6, or 1/9 size pans up to 8" deep (pans supplied by others)
- General fit 7.6" chiller bar spacing
- Compressor compartment right side
- Stainless steel lift-off night cover
- Sloped rail
- 14" white poly cutting board (2 row pan rail models)
- 8" white poly cutting board (3 row pan rail models)
- 20" stainless steel door(s), left or right hinge option
- Self-closing door(s) with stay open feature
- Metal door handle with gasket guard
- Magnetic snap-in door gasket(s)
- Two (2) shelves per door, on pilasters
- Expansion tank

TB091SL2S

- Heat exchanger and pump closely located from and in communication with refrigeration controls
- Thermostatic expansion valve metering device
- 6" casters
- 9' cord & plug attached
- Three year service labor & 5 year compressor warranty
- **All models meet DOE 2017**

REFRIGERANT – DROP-IN PAN CHILLERS

27", 34", 41", 48", 55", 62", 69", 76", 83" & 90" Wide Models

STANDARD FEATURES:

- Stainless steel top frame, inner pan, outer wrap and chiller plates
- Control assembly shipped loose and includes thermostat, defrost time clock, solenoid valve and thermal expansion valve
- Lift-off night cover
- Three year service labor warranty
- **All models meet DOE 2017**

GLYCOL – DROP-IN PAN CHILLERS

26", 33", 39", 46", 52", 59", 65", 72", 78", 85" & 91" Wide Models

STANDARD FEATURES:

- Glycol system exceeds NSF requirements by maintaining most food at or below 39° using specified 8" deep pans
- Heavy-duty all stainless steel, flat rail with T6 anodized horizontal divider bars
- Horizontal finned T6 anodized chiller plates holds 1/3, 1/6, or 1/9 size pans up to 8" deep (pans supplied by others)
- General fit 7.6" chiller bar spacing
- Stainless steel lift-off night cover
- Three year service labor & 5 year compressor warranty
- **All models meet DOE 2017**

CHILLERS – BLAST CHILLERS

Undercounters, Reach-In & Roll-In/Roll-Thru

STANDARD FEATURES:

- Probe chill start
- Four operating modes
- Epicon common interface
- USB data exchange
- On-board printers
- Manual & auto programming
- Chill by time or temp
- Product recall
- Dual condensing units (excludes TBC5)
- Three removable small diameter probes
- Metal breakers
- Lifetime warranty on door hinges & handles
- Three year parts & labor warranty
- Five year compressor warranty
- **All models meet DOE 2017**

Undercounter

TU048QC
(shown with optional casters)

STANDARD FEATURES:

- Stainless steel exterior and interior
- Microprocessor control with 3 digit LED
- 115/60/1 voltage, self-contained, with cord and plug attached
- Left hand refrigeration system
- Condenser filter
- Non-electric automatic condensate evaporator
- Operates at 31°F to 35°F
- Two plated shelves on pins
- 6" high legs
- Three year parts & labor warranty
- Five year compressor warranty
- **All models meet DOE 2017**

WIDTH x DEPTH x HEIGHT	QUICK CHILLER

SPECIAL APPLICATION PRODUCTS – REFRIGERATOR Reach-In, Sliding Glass Door (2 Section)

STANDARD FEATURES:

- Self-closing sliding glass doors with Stay Open feature (remote models available)
- Three plated shelves per section
- Four 6" high stainless steel adjustable legs
- Stainless steel exterior and interior finish
- Microprocessor control with 3-digit LED temperature display
- 115/60/1 voltage, self-contained, with cord and plug attached
- LED lights with exterior switch
- Automatic, non-electric condensate evaporator
- Two fluorescent lights
- Three year parts & labor warranty
- Five year compressor warranty
- **All models meet DOE 2017**

SPECIAL APPLICATION PRODUCTS – REFRIGERATOR AND FREEZER

Reach-In, Extra Wide Application

STANDARD FEATURES:

- Incandescent lights
- Self-closing doors with stay open feature and locks
- Refrigerator models: Three plated shelves
- Refrigerator/freezer models: One plated shelf per compartment
- R-Series: Stainless steel exterior and interior finish
- A-Series: Stainless steel exterior and anodized aluminum interior
- Microprocessor control with 3-digit LED temperature display
- 115/60/1 voltage, self-contained, with cord and plug attached
- Four 6" high stainless steel adjustable legs
- Automatic condensate evaporator
- Lifetime warranty on door handles and hinges
- Three year parts & labor warranty
- Five year compressor warranty
- **All models meet DOE 2017**

Mobile Display Cabinet

STANDARD FEATURES:

- Exclusive refrigeration system designed for all day use and easy cleaning of the product display area
- High quality stainless steel exterior construction
- INTELA-TRAUL® microprocessor control system with 3-digit LED temperature display
- 115/60/1 voltage, self-contained balanced refrigerated system
- Automatic, condensate removal
- Convenient valve for occasional draining of ice melt off, facilitates cleaning
- Ten (10) tray slides for 18" x 26" sheet pans (5 per door)
- Self-closing door(s) with stay open feature
- Easy to clean profile gasket
- Transport latch
- Front POS shelf (for signage)
- Two bumper levels on front and sides, prevents damage
- Holder for plastic bags used with king crab legs
- 5" high heavy duty casters (two fixed for mobility)
- Three year parts & labor warranty
- Five year compressor warranty
- **All models meet DOE 2017**

Safely Displays Product

FULL SIZE UNDERCOUNTER MODELS

WIDTH x DEPTH x HEIGHT	NUMBER DOORS	REFRIGERATORS
78" x 37" x 59 1/8"	2	TD078HT-1

Featuring the industry's first 3-YEAR PARTS & LABOR WARRANTY on all units.

EZ-Open Foot Pedal

This ergonomically-friendly option, is offset from the door and positioned close to the floor. To open your cabinet, simply press the pedal with the ball of your foot.

By adding the EZ-Open Foot Pedal to your cabinet, you can:

Reduce Spills – Product can be secured with both hands minimizing the possibility of contact with a moving door.

Support Sanitation Efforts – Fewer spills reduce the possibility of cross-contamination.

Ease Of Access – EZ-Open Foot Pedal compliments our standard stay-open door feature.

EZ-Clean Gasket

Fits most hot and cold Traulsen units. Made of durable, sanitizer-resistant Santoprene®, our gasket works with your team supporting food quality and safety.

The EZ-Clean Gasket in your Traulsen unit:

Supports Sanitation Efforts – Unlike others available on the market, the EZ-Clean Gasket has a one fold or “bellow” design, which facilitates finding and eliminating dirt and mold.

Saves Time and Effort – Santoprene® material enables quick cleaning with just the use of sanitizer and a wash cloth. No additional tools required.

Reduces Replacement Costs – Independent lab testing indicates a lifespan increase of at least 50% for Santoprene over standard PVC gaskets.

Smart Services*

One year remote monitoring included

* Optional accessories. Consult your representation for details.

EZ-Change Interiors

With this option, pilasters can quickly and easily be placed over your unit's side-mounted shoulder screws and moved into place . . . by hand and without tools. Also, the 16-gauge stainless steel tray slides simply drop into labeled grooves to ensure proper alignment.

By adding the EZ-Change Interiors to your unit, you can:

Enjoy Time-Saving Versatility – Quick, no-tools reconfiguration helps you create the space you need, when you need it.

Minimize Spills – EZ-Change tray slides hold up to 100 pounds without bending. For big jobs, consider our heavy-duty tray slides which support up to 150 pounds of product.

Support Sanitation Efforts – All pilasters are dishwasher-safe.

Bare Tube Coil

When adding this option, you can install your cabinet with minimal concern about missed condenser cleanings. In fact, test lab research indicates that you may never have to clean this coil. Ever!

In relation to compressor performance, the Bare Tube Coils' efficiency remains consistent because under typical commercial conditions it never needs to be cleaned.

By choosing a Bare Tube Coil for your cabinet, you can:

Enjoy Ease of Maintenance – Without fins, dust and dirt have virtually no surface area to cling to making regular coil cleanings unnecessary.

Save Money – In energy savings alone, the addition of the bare tube coils pay for themselves within about the first two years of use (based on \$.15/kWh, under typical commercial kitchen conditions).

Preserve Factory Performance – Compressors work harder when air flow is inhibited by dirty condenser coils. Bare tube coils facilitate ample air flow passage into the condenser while extending your compressor's life.

Tray Slides

Kool Klad Decor

Correctional Application

Additional Shelves

Drawers in Lieu of Doors

Flanged Legs

Options for R & A Series Reach-In/Pass-Thru

Additional Plated Shelves

Add up to a total of nine plated shelves (8 on half-door models) per section on pins (except 1-section dual-temp models), and up to 13 (12 on half-door models) if mounted on optional pilasters at 4" spacing.

Stainless Steel Shelves

Ideal for when jobsite conditions require an alternative to standard plated shelves.

#1 Tray Slides

16 gauge stainless steel angle type tray slides for bottom support of either one 18" x 26" pan or two 14" x 18" pans.

#4 Tray Slides

Plated steel rod type tray slides mounted on a steel frame for rim support of 18" x 26" pans. **Each pair can accommodate a maximum of 19 pans at 1-1/2" increments**, and equips one half cabinet section (actual pan capacities may vary depending upon cabinet type and door size).

Universal Tray Slides

16 gauge steel angle type tray slides for bottom support of one 18" x 26", two 14" x 18" or two 12" x 20" pans.

Reach-In Drawers

Replace the bottom half door with two or three drawers for convenient pan storage.

6" or 45/8" High Casters

Set of four, plate type casters, two with locks, mount easily at the bottom of any Traulsen reach-in or pass-thru model, allowing them to be moved on-site for easy cleaning underneath.

Locking Hasp(s)

Available in both single or double styles (depending upon model and door hinging), allows you to secure your valuable food stuffs with a simple padlock.

Kool Klad Laminate Decor

Match your kitchen decor from among the many colors of the Wilsonart® rainbow (other manufacturer's laminates also available).

6" High Flanged Legs

Allows your Traulsen model to be secured to the floor, when required for seismic and marine applications.

Correctional Application Package

Combines several features to secure cabinet for use in a corrections facility.

Options for TU & TE Models

Flat Stainless Steel Top

Provides a flat work surface on top of any full-size undercounter. Note that an optional stainless steel top is required if it is being used to support equipment weighing in excess of 100 lbs. or producing heat in excess of 140°F to the top surface. Similar tops with either a Drip Guard Edge or Backsplash are also available. Equipment stand models are supplied standard with a stainless steel marine top with drip guard edge.

Stainless Steel Back

Provides a finished look for any full-size undercounter or equipment stand when not placed against a wall.

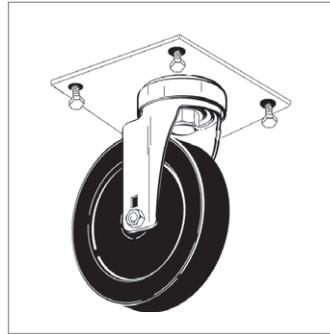

Cabinet Extension Sections

Allows you to extend the width of your equipment stand by 6".

OPTIONS & ACCESSORIES

Drawers In Lieu Of Doors

6" High Casters or Legs

6" Cabinet Extension Section

Flat Stainless Steel Top

Single Locking Hasp

**Special Roll-In Rack for
TBC1H & TBC2H**

Drawers In Lieu of Doors

Full-size undercounters can be modified to replace one door with two or three drawers.

Doors In Lieu of Drawers

Equipment stand models can be modified to replace two drawers with one door.

#1 Tray Slides

16 gauge stainless steel angle type tray slides for bottom support of either one 18" x 26" pan or two 14" x 18" pans.

Additional Plated Shelves

Universal Tray Slides

16 gauge steel angle type tray slides for bottom support of one 18" x 26", two 14" x 18" or two 12" x 20" pans.

6" High Casters

Set of six or eight, plate type casters, half with locks, mount easily at the bottom of any Traulsen full-size undercounter, allowing them to be moved on-site for easy cleaning underneath.

Options for Blast Chill Models

Condensate Evaporator Kits

Choose from 208V bottom-mounted (model TBC13 only) and 115V floor mounted (models TBC1H, TBC1HR, TBC2H and TBC2HR only).

Stainless Steel Back for TBC5

Special Roll-In Rack for TBC1HR & TBC2HR

Purchase a rack specifically designed to facilitate the air-flow pattern of your Traulsen roll-in or roll-thru blast chiller. Accommodates twenty-six 12" x 20", thirteen 18" x 26" or twenty-six 14" x 18" pans.

Accessories for G-Series Models

Additional Shelf Kit

Kit contains three epoxy coated shelves with twelve pins for easy installation

#1 Tray Slide Kit

Kit contains four pairs (enough for four pans) of #1 type tray slides. Standards and mounting hardware are also provided.

Universal Tray Slide Kit

Kit contains four pairs (enough for four pans) of universal tray slides. Standards and mounting hardware are also provided.

#4 Tray Slide Kit

Kit contains two pairs (enough to equip a full section) of #4 type tray slides. Standards and mounting hardware are also provided.

Leg Kit

Set of four 6" high adjustable legs.

Options for TS Series – Full Size Prep Table Models

Cutting Boards

Choose your prep surface—composite wood or white vinyl. Both board materials are the highest quality, durable and easy to clean.

Shelf for Scale

Ideal when what you're putting together calls for more precise food measurement.

Top Shelf

It's the perfect place to keep spices and other non-refrigerated ingredients within easy reach.

Garnish Rack

Using our optional garnish rack, give your food that final touch without getting your work surface dirty.

WARRANTY STATEMENT

U.S. DOMESTIC WARRANTY (v. 100215)

For sales of Traulsen refrigeration equipment ("Equipment") within the United States, Traulsen warrants to the original purchaser of the Equipment ("Purchaser") that Traulsen will convey the Equipment free and clear of all liens, security interests, and encumbrances created by, through, or under Traulsen. Traulsen further warrants that for a period of three (3) years from the later of either (a) the date of delivery to the common carrier or (b) the date of installation (the "Domestic Warranty Period") but in no event, shall the Domestic Warranty Period commence later than 18 months from the date of delivery to the common carrier unless otherwise agreed upon by the parties in writing, under normal use and given proper installation and maintenance as determined by Traulsen, the Equipment: (a) will conform to the specifications as provided by Traulsen ("Specifications") and (b) will be free from substantial defects in material and workmanship.

The warranty period for compressors shall extend for an additional two (2) years beyond the Domestic Warranty Period. In the case of a nonconforming compressor, Traulsen shall provide a replacement compressor; however all installation, recharging, and repair costs shall be the responsibility of Purchaser. In the case of a nonconforming part, Purchaser must return the part to Traulsen within 30 days from the date of repair. Failure to return a claimed defective part to Traulsen within the 30 days will waive the right to the warranty claim.

Additionally, Traulsen provides a lifetime warranty on the housing of cam-lift hinges and the workflow handles. In the case of a non-conforming housing for cam-lift hinge or workflow handle, Traulsen shall provide a replacement part; however Purchaser shall be responsible for any other replacement costs, including but not limited to installation and labor.

The Domestic Warranty does not apply to: (a) consumable components or ordinary wear items; (b) components that are removable without the use of tools including but not limited to gaskets, shelf pins, and light bulbs; (c) use of the Equipment components or parts not supplied by Traulsen or specified by Traulsen in the Operator's Manual as set forth on Traulsen's website; or (d) damage resulting from fire, water, burglary, accident, abuse, misuse, transit, acts of God, terrorism, power surges, improper installation, or repairs or installation by unauthorized third parties.

For Traulsen units purchased for use with a condenser provided by a third-party, this standard warranty will apply only to those components contained within the unit to the point of connection of the refrigeration lines leading to the third-party condenser.

In the event of a breach of the warranties set forth above (the "Domestic Warranty"), Traulsen will, at Traulsen's option and as Purchaser's sole remedy, repair or replace, including labor costs, any nonconforming Equipment, provided that (a) during the Warranty Period Traulsen is promptly notified in writing upon discovery of the nonconformance with a detailed explanation of any alleged deficiencies; (b) Traulsen is given a reasonable opportunity to investigate all claims; and (c) Traulsen's examination of any alleged defective part confirms such alleged deficiencies and that the deficiencies were not caused by misuse, neglect, improper installation, unauthorized alteration or repair or improper testing. Traulsen reserves the right to, at its request, require Purchaser shall ship the alleged defective part to Traulsen for inspection and confirmation of defect. No Equipment may be returned without Traulsen's approval.

Purchaser is solely responsible for determining if Equipment is fit for a particular purpose and suitable for Purchaser's application. Accordingly and due to the nature and manner of Traulsen's Equipment, Traulsen is not responsible for the results or consequences of use, misuse, or application of its Equipment.

THIS DOMESTIC WARRANTY SETS FORTH THE EXTENT OF TRAUlsen'S LIABILITY FOR SALES WITHIN THE UNITED STATES. EXCEPT AS SET FORTH ABOVE, TRAUlsen MAKES NO WARRANTY OR REPRESENTATION OF ANY KIND, EXPRESS OR IMPLIED (INCLUDING NO WARRANTY OF MERCHANTABILITY OR FITNESS FOR ANY PARTICULAR PURPOSE). IN NO EVENT WILL TRAUlsen'S LIABILITY IN CONNECTION WITH THE AGREEMENT OR SALE OF THE EQUIPMENT EXCEED THE PURCHASE PRICE OF THE EQUIPMENT AS TO WHICH THE CLAIM IS MADE. IN NO EVENT SHALL TRAUlsen BE LIABLE FOR ANY LOSS OF USE, LOSS OF PRODUCT, LOSS OF PROFIT, OR ANY OTHER INDIRECT, INCIDENTAL, SPECIAL, OR CONSEQUENTIAL DAMAGES RESULTING FROM THIS WARRANTY EVEN IF TRAUlsen HAS BEEN NOTIFIED OF THE POSSIBILITY OF SUCH DAMAGES.

EXPORT WARRANTY (v. 100215)

For sales of Traulsen refrigeration equipment ("Equipment") outside of the United States, Traulsen warrants parts only, not labor to the original purchaser of the Equipment ("Purchaser") that Traulsen will convey the Equipment free and clear of all liens, security interests and encumbrances created by, through or under Traulsen. Traulsen further warrants that for a period of one (1) year from the date of delivery to the common carrier (the "Export Warranty Period") unless otherwise agreed upon by the parties in writing, under normal use and given proper installation and maintenance as determined by Traulsen, the Equipment: (a) will conform to the Specifications as provided by Traulsen; and (b) will be free from substantial defects in material and workmanship. It is the end user's responsibility to arrange for the export shipping.

The Export Warranty does not apply to: (a) consumable components or ordinary wear items; (b) components that are removable without the use of tools including but not limited to gaskets, shelf pins, and light bulbs; (c) use of the Equipment components or parts not supplied by Traulsen or specified in the Operator's Manual as set forth on Traulsen's website; or (d) damage resulting from fire, water, burglary, accident, abuse, misuse, transit, acts of God, terrorism, power surges, improper installation, or repairs or installation by unauthorized third parties.

For Traulsen units purchased with a condenser provided by a third-party other than Traulsen, this standard warranty will apply only to those components contained within the unit to the point of connection of the refrigeration lines leading to the to the third-party condenser.

In the event of a breach of the warranties set forth above (the "Export Warranty"), Traulsen will, at Traulsen's option and as Purchaser's sole remedy, repair or replace, but not including labor, freight, export costs, packaging costs, any nonconforming Equipment, provided that (a) during the Export Warranty Period Traulsen is promptly notified in writing upon discovery of such nonconformance with a detailed explanation of any alleged deficiencies; (b) Traulsen is given a reasonable opportunity to investigate all claims; and (c) Traulsen's examination of such piece of Equipment defective part confirms the alleged nonconformity and that the nonconformities were not caused by misuse, neglect, improper installation, unauthorized alteration or repair or improper testing. Traulsen reserves the right to, at its request, require Purchaser shall ship the alleged defective part to Traulsen for inspection and confirmation of defect. No Equipment may be returned without Traulsen's approval.

Purchaser is solely responsible for determining if Equipment is fit for a particular purpose and suitable for Purchaser's application. Accordingly and due to the nature and manner of Traulsen's Equipment, Traulsen is not responsible for the results or consequences of use, misuse, or application of its Equipment.

THIS EXPORT WARRANTY SETS FORTH THE EXTENT OF TRAUlsen'S LIABILITY FOR SALES OUTSIDE THE UNITED STATES. EXCEPT AS SET FORTH ABOVE, TRAUlsen MAKES NO WARRANTY OR REPRESENTATION OF ANY KIND, EXPRESS OR IMPLIED (INCLUDING NO WARRANTY OF MERCHANTABILITY OR FITNESS FOR ANY PARTICULAR PURPOSE). IN NO EVENT WILL TRAUlsen'S LIABILITY IN CONNECTION WITH THE AGREEMENT OR SALE OF THE EQUIPMENT EXCEED THE PURCHASE PRICE OF THE EQUIPMENT AS TO WHICH THE CLAIM IS MADE. IN NO EVENT SHALL TRAUlsen BE LIABLE FOR ANY LOSS OF USE, LOSS OF PRODUCT, LOSS OF PROFIT, OR ANY OTHER INDIRECT, INCIDENTAL, SPECIAL, OR CONSEQUENTIAL DAMAGES RESULTING FROM THIS WARRANTY EVEN IF TRAUlsen HAS BEEN NOTIFIED OF THE POSSIBILITY OF SUCH DAMAGES.

SPIRAL MIXERS HSL & HSU Series

Listed by ETL

HSL220

Designed specifically for the unique, high-quality dough needs of commissaries, bakeries, and large pizzerias, this is the spiral mixer you've been waiting for. Hobart mixers speed up the process with the combined action of the spinning dough hook and the rotating bowl. The ingredients mix faster, limiting oxidation, and generate superior-quality dough.

STANDARD FEATURES:

- Heavy duty bowl and spiral motor.
- Extra pulley and strong spiral dough hook.
- Manual and automatic.
- Two fixed speeds and two (2) 20 minute programmable timers.
- No need to stop mixer to change speeds.
- Mounted on casters for easy mobility.
- See through bowl guard.

CUTTER MIXER HCM450

Listed by UL, Certified by NSF

The Hobart HCM lets you cut, mix and blend in seconds with complete control from start to finish . . .

STANDARD FEATURES:

- See-through cover – made of high impact plastic, strong yet lightweight. A built-in scraper, located on the mixing baffle, helps keep the bowl sides and cover clear. Electric interlocks prevent operation when cover is open or bowl tilted.
- Streamlined, functional controls – start and stop selectors are completely sealed and washable.
- Easily removable attachment shafts – lock knob lets you remove them without tools. A Cut/Mix Attachment and a Knead/Mix Attachment are provided to handle all of your needs.

Anodized aluminum hopper and housing. Top cover burnished aluminum. Stainless steel accessory plates with replaceable knife blades for long lasting, cost effective operation. Easy to operate off and on switches. Pusher plate and feed head interlocks. Fits on 23" deep counter. Pusher handle swings out of the way for

two-handed loading. Stainless steel FP400i floor model supports high volume production, multiple feed choices and accessories in stainless steel. Deflector plate and cleaning brush standard equipment.

Food Preparation Equipment

FOOD PROCESSORS Combination – HCC34

Listed by UL, Certified by NSF

Combination food processor capable of performing either bowl processing or continuous feed processing.

- Four speed settings for high quality results on a variety of food products.
- SureSense™ speed control identifies which processor head is installed and adjusts the speed for optimal results.

Bowl Processing

- 3.2 qt. stainless steel bowl.
- Clear plastic cover for viewing product as processing.
- Bowl processing at 1,450/2,650 rpm for excellent emulsion and blending results.

Continuous Processing

- Continuous feed operation at 500/800 rpm provides reliable, consistent cuts.
- Stainless steel cutting tool construction.
- Kitted processor includes 5/32" slicer, 5/32" shredder, and 3/8" dicing plate.

Model 6115: Peels 15 lbs. in one to three minutes. Portable convenience, with the same excellent quality of our larger models. Peeler disc made of abrasive silicon carbide. Removable aluminum hopper door and cam-type pressure lock. Removable Lexan liner. Includes fill hose and four minute timer.

Accessories 6115: Cabinet base and peel trap. Portable wheeled stand and Peel Trap Basket also available at extra cost.

Models 6430 and 6460: 6430 peels 30 lbs. in one to three minutes while 6460 handles 50-60 lbs. in the same time. Peeler disc made of abrasive silicon carbide. Removable aluminum hopper door, aluminum cam-type pressure lock, adjustable legs and centralized controls. Removable Lexan liner. Air-gap type water inlet promotes interior self-cleaning and prevents splash. Timer is standard on single phase. Not available on three phase.

Accessories 6430 and 6460 (select one): Cabinet base and peel trap with stainless steel strainer. Disposer stand (specify model FD3/50-6 disposer. Voltage for disposer must be the same as disposer stand).

Model 6460M: Same as Model 6460 with standard cabinet base and peel trap, casters for easy mobility, and side mounted water inlet with hose fitting.

Finish: Stainless steel peeler and cabinet base. Gray plastic molded hopper cover. Cast ball burnished aluminum door, handle, discharge chute and legs. Resilient rubber trim molding.

Peeler Stand
for Model 6115

MEAT TENDERIZER 403

Listed by UL, Certified by NSF

Lift-out unit has stainless steel knives. Burnished aluminum housing, transparent plastic food chute, 1/2 H.P. motor. The unit includes a knit knife lift-out unit.

Optional Equipment:

Strip Cutter Knife – Cut flank steak, sirloin, chicken breast or pork for stir fry or fajitas; strip cut cooked ham, turkey and cheese for chef salads or garnishes. Available in three sizes: Extra Wide (3/4"); Wide (3/8"); Narrow (3/16").

Star Knife – Rollers use an 11 tooth pointed star blade. This produces a lighter, less dense tenderizing cut for more delicate meats.

Strip Cutter Knife

Star Knife

MEAT CHOPPERS 4732, 4812 & 4822

Listed by UL, Certified by NSF

MODEL NO:	4812	4822	4732	4732A
Chopping End Size	#12	#22	#32	
Motor – Universal AC Constant Speed	½ H.P.	1½ H.P.	3 H.P.	
Electrical Specifications	120/60/1, 230/50/1, 240/60/1	120/60/1, 230/50/1, 240/60/1, 208-240/60/3, 480/60/3	200/60/1, 200/60/3, 208/60/3, 230/60/1, 230/60/3, 380/50/3	230/60/1, 200/60/3
Capacity – lbs. per min. (beef) First grind thru ¼" plate	8 lbs.	16 lbs.	35 to 40 lbs.	
Overall Dimensions (Height x Width x Depth)	23¼ x 12 ¹³ / ₁₆ x 29 ⁷ / ₈	23¼ x 12 ¹³ / ₁₆ x 29 ⁷ / ₈	26 ⁷ / ₁₆ x 23½ x 46 ³ / ₁₆	
Chop End	Straight throat. Tinned cast iron cylinder, auger, & adjusting ring.	Straight or Funnel Shaped (FS) throat. Tinned cast iron cylinder, auger & adjusting ring	Straight throat (rectangular opening). Tinned cast iron cylinder & auger. SST adjusting ring.	
Pan	Removable stainless steel. No guard. No interlocks.	Removable stainless steel, no guard for straight throat C/E. Removable stainless steel with guard for FS C/E. No interlocks.	Stainless steel. Fixed to machine (clean in place). No interlocks.	Stainless steel. Interlocked pan removable for sink cleaning.
Net Weight/Shipping Weight	118 lbs./144 lbs.	182 lbs./207 lbs.	307 lbs./320 lbs.	
	Stainless steel housing, legs, and trim. Stay Sharp knife. Carbon steel plate (¼" holes). Plastic stomper.		Housing finish: painted carbon steel or stainless steel. Legs: 5" stainless steel, 18" chrome plated, or 21" chrome plated. Knives and plates are available as accessories. Plastic stomper. Stainless steel deflector on adjusting ring. Stainless steel cylinder wrench included. Larger choppers are also available up to 5 H.P.	

MEAT SAWS 6614 & 6801

Listed by UL, Certified by NSF

6614

6801

Rigid, open construction with easy to clean, heavy duty carriage support. Stainless steel carriage and table working surface. Stainless steel gauge plate. Bright tinned cast iron upper and lower blade pulleys. Eye-level "On-Off" switch. Positive lock, quick release gauge plate. No tools are needed for removal of parts for cleaning. Designed for complete hose-down,.

Entire motor, transmission and lower pulley assembly is mounted with automatic blade tension control accessible just below right table.

Standard Equipment: One sawblade and pusher plate for short ends.

MODEL NO.	6614 Saw	6801 Vertical Saw
Cutting Clearance H x W	15½" x 12"	17½" x 15¾"
Cutting Table	18¼" x 34½"	21½" x 39 ⁵ / ₈ "
Motor	3 H.P.	3 H.P.
Carriage	14" D x 19¾" W	16" D x 24¼" W
Blade Length	126"	142"
Shipping Weight	550 lbs.	555 lbs.

PRIME MIXER-GRINDERS MG1532 & MG2032

Listed by UL, Certified by NSF

The Hobart Prime Inclined Screw Mixer-Grinder puts an end to the bend by putting the grinding head high so trays can be filled at a more natural height. The results are more productivity, less labor cost, and more dollars to your gross margin.

Double wall construction completely separates the meat chamber from the drive componentry.

The entire unit cleans quickly and easily. Here's why:

- Easy-to-clean, self-draining hopper.
- Convenient access to all hopper surfaces.
- Hand-removable, interchangeable seals.
- Mixing arm and feed screw remove easily.
- Designed for quick hose-down cleaning and sanitizing.
- With seals removed, water drains out quickly.

Standard unit includes:

- Footswitch
- Casters
- Cord and plug

MODEL NO.	MG1532	MG2032
Hopper Capacity	150 lbs.	200 lbs.
Motor H.P.		
Grind	7½ H.P.	7½ H.P.
Mix	1 H.P.	1 H.P.
Electrical Specifications	208/60/3, 480/60/3	200-220/50/3, 208/60/3, 480/60/3
Rated Amps	208/60/3 - 30 Amps 480/60/3 - 15 Amps	200-220/50/3, 208/60/3 - 30 Amps, 480/60/3 - 15 Amps
Finish	Glass bead finished stainless steel hopper, stainless steel panels, stainless steel chop cylinder and adjusting ring. Tinned cast iron auger. Tinned carbon steel mix arm.	

GRINDER 4146

Listed by UL, Certified by NSF

MODEL NO.	4146
Chopping End Size	#32
Motor – Hobart-Designed Ball Bearing	5 H.P.
Electrical Specifications	200/60/3, 230/60/3, 380/50/3
Capacity – Lbs. per min. (beef) First Grind thru 1/8" plate	60-65 lbs.
Overall Dimensions Height x Width x Depth	47 ⁹ / ₁₆ " x 26 ¹⁰ / ₁₆ " x 59 ⁹ / ₁₆ "
Net Weight/Shipping Weight	372 lbs./412 lbs.
	Stainless steel or tinned feed pans available. Legs to convert to floor model. Stainless steel or painted housing available.

MIXER-GRINDER 4246

Listed by UL, Certified by NSF

STANDARD FEATURES:

- Exclusive wedge cylinder for full-rate feed for entire batch.
- 5 H.P. grind motor, 1 H.P. mix motor.
- Up-front, easy-to-reach controls.
- Grinder hopper of glass-bead-finished stainless steel.
- Interlock on hopper lid.
- Hopper lid easily converts for right or left side loading.
- Depending on the type of product, capacity is 140 pounds.
- Tinned cast iron auger.
- Tinned carbon steel mix arm.

RACK OVENS – SINGLE & DOUBLE OV500 Series

Listed for safety and sanitation by UL

OV500E1/OV500G1-EE

Gas Models Only

OV500E2/OV500G2-EE

STANDARD FEATURES:

- ENERGY STAR® certified.
- 10 year parts & labor warranty on heat exchanger tubes (gas models only).
- Easy-to-use digital controls: set temperature, time, steam, fan delay and vent in up to 4 steps or stages. Store a maximum of 99 recipes.
- Heavy duty rack lift includes high-temp bearings and slip clutch soft start rotation system.
- Stainless steel interior and exterior construction.
- Long-lasting halogen lighting in the oven chamber.
- Three pane viewing window reduces heat transfer out of the oven and is easily cleaned for visibility into the bake chamber.
- Flush floor provides easy access – no ramp required.
- Field reversible bake chamber door.
- Integral, curved hood is fully fire-sealed for Type I or Type II installations and is listed to UL 710 standards.
- Patented, self-contained cast spherical steam system.
- Built-in rollers and levelers for ease of installation.
- Stainless steel B style rack lift.
- Oven racks sold separately.

RACK OVENS – MINI ROTATING OV310 Series

Listed for safety and sanitation by UL

Mini-rack oven shown on 12-pan stand base

Mini-rack oven shown on proofer base

STANDARD FEATURES:

- Stainless steel interior and exterior construction.
- 10 year parts & labor warranty on heat exchanger tubes (gas models only).
- Loading doors with positive latching closure operate independently.
- Dual pane viewing windows open for easy cleaning between the panes.
- Easy-to-use digital control: set temperature, time, steam, fan delay and vent in multiple steps. Store recipes for up to 99 different products.
- Air velocity, direction of air flow and the rotating interior rack provide the proper atmosphere to give consistent results.
- Patented, self-contained cast spherical steam system.
- Interior rack is easily removable for cleaning or routine maintenance. Patented removable bottom provides easy access to the oven's floor for quick clean-up.
- One interior rack is included with the oven. Additional are sold separately.
- Proofer and stand base units available to meet your application demands. Units sold separately.

DECK OVENS OV450 Series

Listed by ETL

OV452N
Double Bake Chamber Oven
Shown on adjustable height stand

OV450W
Wide Deck Oven
Shown on adjustable height stand

STANDARD FEATURES:

- Available in 2 widths: 38.4" w (OV452N) or 61.8" w (OV450W).
- Narrow width oven available in double bake chamber model only.
- Stackable decks.
 - OV452N up to two decks
 - OV450W up to four decks
- Each oven is sold and operated independently.
- Stainless steel exterior.
- Glazed stone baking surface.
- Separately controlled top and bottom elements.
- Easy-to-operate digital controls.
 - Temperature
 - Time
 - Steam
- Exhaust from each deck is combined for a single point exhaust from the top.
- Illuminated bake chamber.
- Glass loading door opens into the bake chamber – minimal loading space required.
- Oven stands (sold separately) are available in several heights to ensure optimal working height at the oven.

SPECIALTY – WATER METER WM600 Series

Listed by UL

STANDARD FEATURES

- Wall mounted. Mounting bracket and hardware included.
- Easy to follow digital controls.
- Dispensing temperature range: 32°F – 125°F. Dispenses up to 1,000 pounds.
- Water delivery can be interrupted and resumed without resetting the system.
- Shipping weight: 52 lbs.

PROOFING CABINETS & RETARDING PROOFING CABINETS PW & RPW Series

Listed for safety and sanitation by UL

PW1

PW2

STANDARD FEATURES:

- Eye-level digital control panel – set heat/humidity system, retarding system (retarding proofing cabinets only), individual rack timers.
- Easy access heat and humidity system – internally mounted, energy efficient.
- Modular panel construction – cam lock attachment.
- Maximum rack height: 74.0".
- Patented air flow system ensures consistent proofing results through-out the chamber.
- Stainless steel interior and exterior.
- Two overall heights offered to meet your site requirements: 94.0"H or 99.5"H.
- Interior perimeter is supplied with bumpers on all sides to protect the finish.
- No flushing required – low maintenance.
- Single door units include field reversible door.
- Optional self-contained refrigeration system, available in limited sizes (retarding/proofing cabinets only).

MINI PROOFING CABINET MB300

Listed by UL, Classified by UL

MB300

STANDARD FEATURES:

- Stainless steel construction.
- 16-pan capacity.
- Insulated top. Optional finished stainless steel top available.
- Available with casters or legs.

OVENS, CONVECTION (FULL SIZE) – ELECTRIC & GAS HEC5 & HGC5 Series

Certified by NSF, Listed by UL (electric), CSA Design Certified (gas)

HEC5

HGC502

HEC ELECTRIC MODELS

- Stainless steel front, sides and top, painted legs.
- Solid state temperature controls adjust from 150° to 500°F.
- 60 minute electric timer with buzzer.
- Energy-efficient, 2-speed, 1/2 H.P. motor. Preheats to 350°F in 10 minutes.
- Includes porcelain interior. Six-sided insulation gives energy efficiency.

HGC GAS-FIRED MODELS

- Stainless steel front, sides and top, painted legs.
- 50,000 BTU/hr. burner per section.
- 1/2 H.P. two speed oven blower motors. 115/60/1 with 6' cord and plug, 8 amps.
- Solid state temperature controls adjust from 150° to 500°F.
- 60 minute timer with audible alarm.
- ENERGY STAR® certified.

SPECIAL GAS AND ELECTRIC MODELS

- Computer controls with digital time and temperature read-outs – “D” models.
 - Shelf ID.
 - Cook & hold cycle.
 - Timer sets cook time from one minute to 24 hours.
 - 99 programmable preset buttons.
- Extra Deep – “X” models.

TOASTER – ELECTRIC ET27

STANDARD FEATURES:

- 4-slice toaster with cordset.
- Solid-state control has no moving parts, significantly improves reliability.
- Long-life electrical solenoids increase carriage release reliability.
- Solid-state control is preprogrammed with optimum toasting curve, adjusts toasting time automatically for consistent results.
- High production of medium toast hourly – 380 slices.
- Slots are featured so the same toaster can toast regular bread, English muffins and bagels. "Texas" style slices can be toasted by removing bread guards.
- Straight-line contemporary styling. Brushed stainless steel finish.
- Operating levers require only 4 lbs. pressure for ergonomic peace of mind.
- Overall size: 12 1/2" W x 13 1/2" D x 7 1/2" H.
- Electrical: 120/208, 120/240 or 208 or 240 VAC/60 Hz/1-ph.

GLASSWASHER DISHMACHINES – advansys

LXGeR / LXGePR

Listed by UL, Certified by NSF, and meets requirements of ASSE Standard No. 1004

LXGePR
(Short Legs)

LXGePR
(Long Legs)

STANDARD FEATURES:

- ENERGY STAR® certified dishmachine
- Deluxe microcomputer, top mounted controls with LED cycle/temperature display with advanced service diagnostics
- Deluxe soil management system with large removable stainless steel scrap screen and secondary fine strainer
- Revolving upper and lower anti-clogging wash arms
- Snap in interchangeable upper and lower rinse arms
- 12" door opening
- 2.9 gallon tank capacity
- 70°F-rise Sense-A-Temp™ booster heater
- 3/4" Pressure regulator standard
- Pumped rinse and pumped drain
- Low-chemical alarms – audible and visual
- Auto Clean cycle – washes down inside of machine at shutdown
- Chemical Pumps standard – detergent, rinse aid, delimer plus sanitizer for chemical machines
- Flexible fill and drain hoses provided
- Electric tank heat
- Hot water or chemical sanitation
- One wine rack

UNDERCOUNTER DISHMACHINES LXe Series

Listed by UL, Certified by NSF, and meets requirements of ASSE Standard No. 1004

LXeC/LXeH

LXeR/LXePR

The LXe base model and **Advansys** LXe models are available in hot water or chemical sanitizing and have been designed from the ground up to support best-in-class wash performance and are ENERGY STAR® certified for energy- and water-saving capabilities.

Deluxe microcomputer, top mounted controls with LED cycle/temperature display with advanced service diagnostics. High temperature models standard with built-in 70° rise booster including Sense-a-Temp™ technology ensuring 180° every cycle.

The base models offer up to 32 and 34 racks per hour production using .74 gallons of water per rack. Constructed of stainless steel for rugged durability. Chamber height of 17" to accept 16" x 18" trays and 30 qt. mixing bowls.

All LXe models feature redesigned, easily removable wash arms. The **Advansys** LXe features patented (pending) snap-in rinse

arms that are even easier to remove and install. Deluxe soil management system with large removable stainless steel scrap screen and secondary fine strainer. Auto Clean cycle washes down inside of machine at shutdown. Pumped rinse and pumped drain. Automatic delime notification with designated delime cycle. Low chemical alert indicator with audible and visual alarms on machine with chemical pumps to meet NSF regulations.

The **Advansys** LXe high-temp model uses only .62 gallons of water per rack and the LXe low-temp model is slightly higher at 1.14 gallons per rack, due to the PuriRinse feature.

The **Advansys** LXe lets operators choose from three different cycles: light, normal, heavy. Exclusive NSF Pot and Pan rating on heavy cycle (LXeR only).

The **Advansys** LXe high-temp model features Hobart's patented Energy Recovery technology allowing the machine to recycle hot water vapor produced during the wash and rinse cycle and uses it to preheat cold inlet water and reduces steam released into the air.

The **Advansys** LXe low-temp model is available with an optional PuriRinse feature – a fresh-water rinse after the chemical sanitizer cycle to remove chemical residue from glasses. **Advansys** LXe models offer advanced features including clogged wash arm alert informing the operator of obstructions, automated delime cycle for machine and booster, and other programmable options.

Standard with two dishracks – one peg and one combination. Chemical Pumps standard – detergent, rinse aid plus sanitizer for chemical machines (**Advansys** models also include Delime pumps).

Low-Temp (120°F minimum – 140°F maximum) chemical sanitizing, fill and dump washer. All stainless steel construction including tank, chamber, doors and frame. Top-mounted control box features an on/off switch, drain/fill switch, cycle light, cycle counter and

de-liming switch for cleaning. Low chemical alert with audible and visual alarm provided standard. Self-flushing stainless steel pump strainer.

POT & PAN WASHERS TurboWash II

STANDARD FEATURES:

- Polished stainless throughout. Sinks, drainboards, splashes and rolled rims are 14-gauge.
- Heavy-duty centrifugal pump with 4" diameter intake, 3" diameter outlet, and 300+ GPM.
- 2 H.P. totally enclosed wash pump motor with permanently sealed bearings.
- Stainless steel pump and impeller.

- Self-draining pump.
- Low water protection for wash pump motor with inherent motor protection.
- 8-11/2" angled stainless steel wash nozzles.
- 11" high x 2 1/2" deep backsplash.
- On/Off wash pump motor switch.
- Options include wash sink heater, faucets, pre-rinse sprays, lever drains, wash sink sump strainer, automatic shutdown timer, auto fill, wash tank separator, utensil basket, overshef, undershef and disposer swirl piping.
- Disposer controls with or without single point electrical connection.
- Available in left-to-right and right-to-left configurations.
- Removable, welded H frame leg sets and adjustable bullet feet.
- Detachable and adjustable height cross rails.
- Dual inlet strainers.

UNIT SIZING SELECTIONS:

- **Soiled and Clean End Edges:** Hemmed, rolled, end splash, dishmachine connection.
- **Soiled and Clean Drainboards:** 12", 18", 20", 24", 30", 36", 42", 48", 54", 60" (Soiled Drainboards 36" and above may include 15" disposer cone). (18 1/2" Clean Drainboard only).
- **Scrappers:** 20", 36" (36" scrapper may include 7" disposer flange.)
- **Wash Sink:** 30", 32", 36", 42", 48", 54", 60". Available as wash sink only for "weld-in" application.
- **Rinse Sink:** 15", 18", 20", 24", 30", 36".
- **Sanitizer Sink:** 18 1/2", 20", 24", 30", 36".
- **Electrical Specifications:** 208-240/60/3, 480/60/3.

Custom configurations to fit your application can be designed. Contact your Hobart representative for further information.

DOOR-STYLE DISHMACHINES

advansys AM15VL Series

Listed by UL, Certified by NSF, and meets requirements of ASSE Standard No. 1004.

Advansys AM15VL

Advansys AM15VLT

Internal condensing system minimizes water vapor. Does not require a vent hood. NSF Certified for washing dishes and pots and pans. Adjustable cycle times of 1, 2, 4 and 6 minutes plus condense time. Rinse consumption of only .74 gallons per rack. Three-door wrap chamber design for corner or straight through installation. 70°F rise booster heater with Sense-A-Temp™ technology standard. 17" door opening.

Washes dishes, pots and pans, a 60-quart mixing bowl and up to 6 full size 18" x 26" sheet pans at a time. 27" door opening. Includes 6-pan sheet pan rack.

A front loading shelf can be ordered to make this a front loading machine.

AUTOMATIC RACK CONVEYOR DISHMACHINES

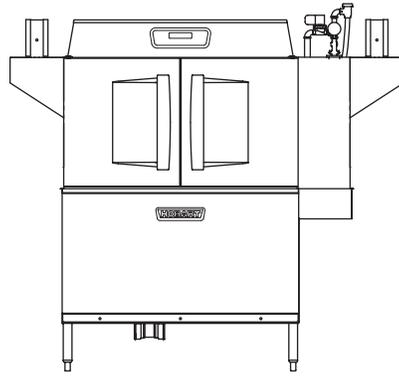

CLeN-BAS Series

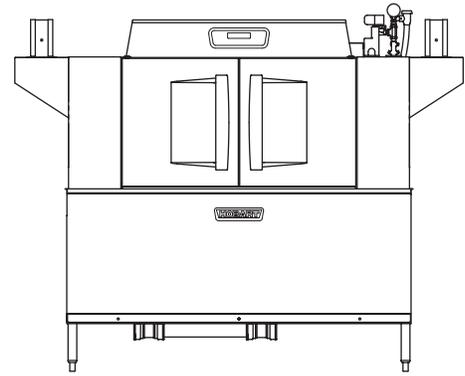

Listed by UL, Certified by NSF, and meets requirements of ASSE Standard No. 1004

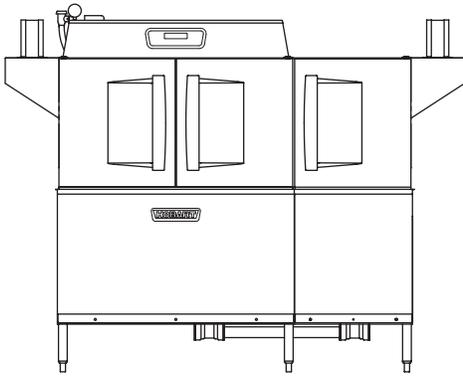

CL44eN-BAS

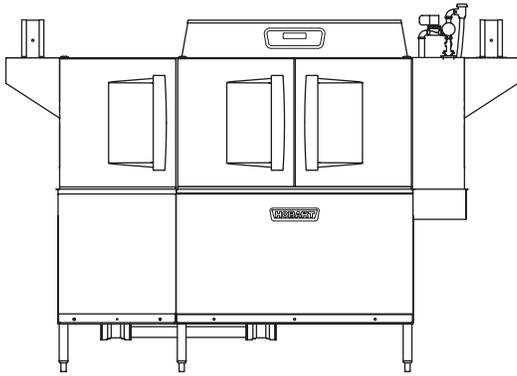

CL54eN-BAS

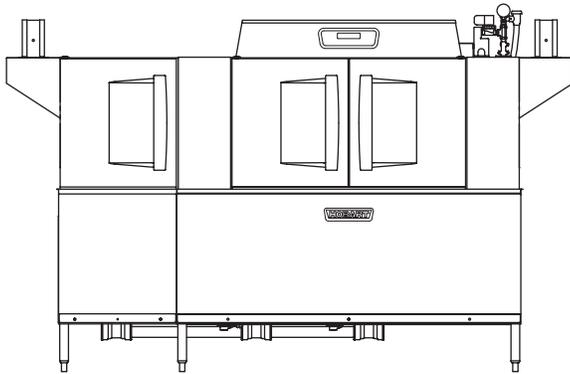

CL64eN-BAS

CLPS66eN-BAS

CLPS76eN-BAS

CLPS86eN-BAS

STANDARD FEATURES

Standard insulated hinged doors on Hobart's CLeN-BAS Warewasher provide full and unrestricted access into the chamber. The insulated doors emit 76% fewer watts of energy into a room.

Microprocessor controls include exclusive features such as Energy Saver mode, dirty-water indicator, low-temperature alerts, intelligent delime notification and NSF-rated configurable pot & pan conveyor dwell mode for an endless wash zone of heavily soiled ware.

Thermal layered curtains are designed to improve temperature retention by an additional 2° to 3°F.

Computational fluid dynamic designed wash system ensures proper alignment and improved results with a full 20 inches of separation between the wash and the rinse zone.

Rapid Return drive system improves wash and rinse results as well as reduces the stress on the drive mechanism with more even throughput.

Pump intake screen not only prohibits large debris from getting into the pump but also the drain as well. The new chamber design provides 67% less interior baffling and wash pipes to clean around.

The improved one-piece strainer pan simplifies the cleanup process. An exclusive above-the-waterline design for the pump and drive motor increases reliability. The 23-gallon prewash tank allows for more food soil to be absorbed before refilling.

When electric heat is specified on any automatic conveyor dishwasher, disconnect switches are recommended for each power circuit connected to dishwasher. These disconnect switches are NOT furnished by Hobart and should be installed in the power circuits ahead of the dishwasher by the electrical contractor at the time of installation.

22" Power Scrapper

An efficient 22" heavy-duty power scrapper for top performance and ultimate efficiency. The power scrapper does not use any additional hot water; it has its own pump which recirculates the detergent and wash water overflow from the power wash tank.

Warewashing & Waste Equipment

AUTOMATIC RACK CONVEYOR DISHMACHINES – **advansys** CLeN-EGR/CLeN-ADV Series

Listed by UL, Certified by NSF, and meets requirements of ASSE Standard No. 1004

CL44eN-EGR/CL44eN-ADV

STANDARD FEATURES

Standard insulated hinged doors on Hobart's CLeN-EGR/CLeN-ADV Warewashers provide full and unrestricted access into the chamber. The insulated doors emit 76% fewer watts of energy into a room. Energy Recovery system captures the energy from the exhaust air to elevate the temperature of the cold water supply to 110° to feed the booster heater.

The Energy Recovery system captures escaping heat and steam from the exhaust air and uses a heat exchanger to recycle it into energy. This free energy is used to preheat the incoming water supply before it enters the booster heater. The cold ground temperature water passes through a heat exchanger positioned directly in line with the machine's unload exhaust system to capture the energy from the exhaust air and ware leaving the machine to elevate the temperature of the water to 110° before it enters the booster heater.

Microprocessor controls include exclusive features such as Energy Saver mode, dirty-water indicator, low-temperature alerts, intelligent delime notification and NSF-rated configurable pot & pan conveyor dwell mode for an endless wash zone of heavily soiled ware.

Thermal layered curtains are designed to improve temperature retention by an additional 2° to 3°F.

Computational fluid dynamic designed wash system ensures proper alignment and improved results with a full 20 inches of separation between the wash and the rinse zone.

Rapid Return drive system improves wash and rinse results as well as reduces the stress on the drive mechanism with more even throughput.

Pump intake screen not only prohibits large debris from getting into the pump but also the drain as well. The new chamber design provides 67% less interior baffling and wash pipes to clean around.

The improved one-piece strainer pan simplifies the cleanup process. A new exclusive above the waterline design for the pump and drive motor increases reliability. The new 23-gallon prewash tank allows for more food soil to be absorbed before refilling.

When electric heat is specified on any automatic conveyor dishwasher, disconnect switches are recommended for each power circuit connected to dishwasher. These disconnect switches are NOT furnished by Hobart and should be installed in the power circuits ahead of the dishwasher by the electrical contractor at the time of installation.

Warewashing & Waste Equipment

AUTOMATIC RACK CONVEYOR DISHMACHINES CLeN Series

Listed by UL, Certified by NSF, and meets requirements of ASSE Standard No. 1004

Side Loading Option SL23e and SL30e

An accessory to adapt any Hobart CLeN Dishwasher to a corner or side loading operation. Adds 23" or 30" to length of machine. Here is a way to save up to 20 square feet or more in your dishroom layout.

Racks of soiled dishes, trays, silverware, etc. are automatically indexed 90° from the soiled dishtable into the dishwasher by means of a stainless steel reciprocating, center-indexing pawl.

Stainless steel. 100 lbs. Shipping Weight.

Built-In Electric Booster Heater

A built-in 15-30 KW, electric, stainless steel, pressure-less (atmospheric pressure), pre-wired and pre-plumbed electric booster heater is an option for all CLeN models. This built-in booster heater represents the best alternative for our customer, as it is designed to deliver the volume of water required by Hobart's exclusive Opti-Rinse™ system. This feature saves installation cost and coordination, process for ordering equipment, valuable floor space, and operator training. The booster heater is also designed to simplify de-liming procedures, which will promote a longer life cycle as compared to other freestanding booster heaters.

30 KW built-in booster heater standard on all CLeN-EGR models.

Booster heaters on CLeN models ship from the factory as 30 KW and are field convertible to 15KW.

DDU38e Direct Drive Unloader

DDU38e shown with CL44eN Dishwasher

An accessory which adapts to any CLeN that automatically discharges the racks at a 90° angle from the operation of the machine onto a clean table. The DDU38e is driven by the conveyor drive of the CLeN and does not require an additional electrical source. The DDU38e only adds 38" to the overall length of the machine, but it can save nearly 20 square feet of floor in your dishroom. Stainless steel construction with a 1 1/2" drain fitting.

Blower-Dryer Option for CLeN and CLeN-EGR

The most energy-, space- and performance-efficient conveyor blower dryer we've ever made.

Using 76% less energy and 45% less space than prior models, the CLeN blower dryer is the perfect finishing touch to one of the most energy-, water-, labor- and space-efficient conveyor warewashers in the industry, Hobart's CLeN and CLeN-EGR.

- 8-20 racks per hour @ 2.35 gals/cycle – PW20
- 7-13 racks per hour @ 2.8 gals/cycle – PW20eR
- Steam Elimination and Energy Recovery – PW10eR/PW20eR
- Advanced delime notification and cycle (includes booster) – PW10eR/PW20eR
- All stainless steel construction
- Solid state heat controls
- Front loading, split-door configuration
- Flat-bottomed, stainless steel frame rack with flat grid rack and tray support racks
- Chamber accepts 10 full-sized sheet pans or 140-quart mixing bowl in the PW10/PW10eR and 20 full-sized sheet pans or 140-quart mixing bowl in the PW20/PW20eR
- Upper and lower revolving, debossed non-clogging wash arms and upper and lower revolving rinse arms
- Heavy-duty door and door hinges
- Large, removable stainless steel scrap screens and scrap bucket
- Adjustable wash cycle timer
- Integrated detergent connections
- Door interlock switch
- Corrosion-resistant impeller
- Spray hose

FLIGHT-TYPE AUTOMATIC RACK CONVEYOR DISHMACHINES FT1000 Series

Entire FT1000 Series is Listed by UL, Certified by NSF and meets requirements of ASSE Standard No. 1004.

FT1000 Energy Recovery Model with optional blower dryer shown

FT1000, FT1000S Base

FT1000ER, FT100SER Energy Recovery – Includes Automatic Soil Removal (ASR), Auto Clean and Auto Delime features, Energy Recovery, optional blower dryer

FT1000ADV Advansys – Includes Automatic Soil Removal (ASR), Auto Clean and Auto Delime features, Energy Recovery, Advansys (ventless) system, blower dryer

Innovative features on the FT1000 can save up to \$26,407 annually. Reduced rinse rate of 58 gallons per hour saves water and energy costs. Optional Energy Recovery and Advansys (ventless) systems reduce energy consumption by 22% annually.

Stainless steel pumps and impellers guarantee durability. Hinged, insulated cabinet-style doors are standard, providing easy access to the chamber and backs of doors. Built-in service diagnostics and digital control panel keypad allow for advanced troubleshooting and machine care, including Hobart’s exclusive Auto Clean and Auto Delime features which require minimal operator intervention.

Conveyor speed is adjustable on the keypad. On/off controls are recessed and located at both the load and unload ends for ease of use. Large, lift-off panels, deep-drawn tanks with minimal welds, Auto Clean, Auto Delime and Hobart’s exclusive Automatic Soil

Removal (ASR) are designed to dramatically reduce clean-up time and overall labor.

The ASR section efficiently removes food soil from the machine, reducing the number of tank refills per day and eliminating the need to pre-rinse ware. Deep, 40 gallon tanks and slanted scrap screens with large collection baskets remove any additional debris from prewash, wash and power rinse sections. Totally enclosed fan cooled motors and stainless steel construction ensure long life.

Other standard features include Dual Rinse, single point vent connection, common water, steam and drain connections. Other options include circuit breakers, choice of conveyor options, tank heat options, security packages, higher than standard chamber.

Peak Rate of Drain Flow – Gallons per minute (Initial rate with full tank)	38	38	38
Shipping Weight Crated	Varies by individual model - consult your Hobart representative		

The digital controls are placed at eye level on the conveniently located control panel, allowing operators to verify proper operation, alerts and temperatures at a glance.

With three model selections, various machine lengths and an adjustable speed conveyor, the FT1000 Series is versatile.

The sloped screens that carry scraps to the scrap baskets are steeper, so less soil gets into the tanks. The basket opening is larger for easy cleaning and basket handles have been designed for easy lift-out access. The external scrap basket beneath the machine's load section provides for ease of cleaning without interruption of machine operation.

Selection Factors and Ordering Data

1. MACHINE RATINGS Racks per hour ratings represent the maximum mechanical capacity of each dishmachine. For average conditions, base estimate on approximately 70% of the machine capacity and average rack capacity of:

- 16-18 9" Dinner Plates Per Rack
- 25 Water Glasses Per Rack
- 16 Coffee Cups Per Rack
- 100 Pieces of Flatware Per Rack

All Racks 20" x 20".

Production of clean dishes will vary with factors such as; the type and efficiency of the dishroom layout, traffic flow, amount, type and length of time the food soil has remained on the dishes, relative hardness of water, industry of the dishmachine operator, fluctuations in flow of soiled dishes to the dishroom & so on.

Your Hobart representative will be glad to help you select the right dishmachine to fit your particular warewashing requirements.

2. MOTORS & PUMPS Highly efficient motors, pumps (Weir Tested) and wash systems – designed for each particular model – assure the proper volume of water at the required pressure.

3. PUMP CAPACITY Volume of water circulated over dishes is not water consumption. When tank has been filled, water is circulated by the pump.

4. HEATING EQUIPMENT Supplied to keep the water hot in the tank, or tanks, of the machine. When electric heat is specified, a disconnect switch (NOT furnished by Hobart) is recommended. The disconnect switch must be supplied and installed by the electrical contractor and connected in the heater electrical supply circuit ahead of machine at the time of installation.

5. RINSE WATER Adequate hot rinse water is essential to operation. Actual consumption of hot water will vary with pressure of the supply, speed at which machine is operated, and the general dish table layout. In estimating hot water requirements the following points should be considered:

- a. Pressure – A flowing pressure of 20 lbs. is ideal. "Flowing Pressure" is indicated on a pressure gauge installed at the inlet side of final rinse valve and read when rinse water is flowing. Pressure regulators are recommended when the flowing pressure exceeds 25 lbs.
- b. Rate of flow – The figures indicate relatively high momentary requirements of the models on which operation is intermittent (AM Series). For these models, ample storage capacity should be included in order that the "non-flowing" periods may be used for building up the supply.
- c. Temperature – National Sanitation Foundation Standards require final rinse of 180° F minimum for hot water sanitization machines registered on the final rinse thermometer. Where regular hot water supply at the machine is below 180°F, a booster heater is recommended.

Please refer to booster sizing charts for proper booster size.

To assure prompt handling of your order, include complete data on the following:

USER'S NAME, ADDRESS AND ZIP CODE

SHIPPING DATE REQUIRED

For CLeN, CLeN-EGR and CLeN-ADV Dishwashers:

Model Number
Direction of Operation – Right to Left or Left to Right
Electrical Specifications – Voltage • Cycle • Phase

Type of Heat:
Electric
Gas: Natural or LP Gas
Steam: Flowing Steam Pressure

For FT Dishwasher:

Model Number
Direction of Operation – Right to Left or Left to Right
Electrical Specifications – Voltage • Cycle • Phase

Type of Heat:
Electric
Steam: Flowing Steam Pressure, Type: Coils

For Final Rinse Water Booster:

Electric
Steam
Model Number
Flowing Steam Pressure
Incoming Water Temperature

Include list of desired accessories.

Operator training videos are available at extra cost on selected machines.

Contact your local Hobart office for complete information.

FOODWASTE DISPOSERS

Disposers

Listed by ETL

There's no doubt about it – cleanup is a messy job, but Hobart can assist this operation with quality-built Foodwaste Disposers. A model for every requirement with optional controls, components and adapters. Check the chart below for your specific needs.

Warewashing & Waste Equipment

FOODWASTE DISPOSERS
Accessory Components

**GROUP A – For All Models
 Use with Long Upper Housing**

-  Vinyl Scrapping Ring
-  Stainless Steel Silver-Saver Sleeve with Side Feed Hole
-  Water Swirl
-  Vacuum Breaker

**GROUP C – For All Models
 Use with Long Upper Housing**

-  Pre-Rinse Spray with Wall Bracket
-  Vinyl Silver-Saver Splash Guard Ring
-  Vacuum Breaker

**GROUP B – For All Models
 Use with Long Upper Housing**

-  Vinyl Silver-Saver Splash Guard Ring
-  Water Swirl
-  Vacuum Breaker

**GROUP D – For All Models
 Use with Long Upper Housing**

-  Vinyl Silver-Saver Splash Guard Ring
-  7" I.D. Stainless Steel Weld-in Adapter for Sink
-  Fixed Direction Water Inlet for Sink
-  Vacuum Breaker

GROUP E – Models FD4/50 thru FD4/125

- NOTE: For use with Short Upper Housing Foodwaste Disposer only
-  Cover Stopper and Sink Adapter Assembly for 3 1/2" to 4" Sink Opening
 -  Fixed Direction Water Inlet for Sink
 -  Vacuum Breaker

FOODWASTE DISPOSERS
Electrical Controls

Listed by UL for use with FD Disposers

**Group 4 – For Models
 FD4/50 thru FD4/200**

- Includes:*
 Manual Reversing Switch
 NEMA 1 Enclosure
 NEMA 4 Enclosure Optional
 Not available above 250 volts
 Optional Solenoid Valve

Group 5 – For All Models

- Includes:*
 Magnetic Contactors
 Pushbutton Start and Stop
 Automatic Reversing
 Made from NEMA 4x Enclosure
 Solenoid Valve

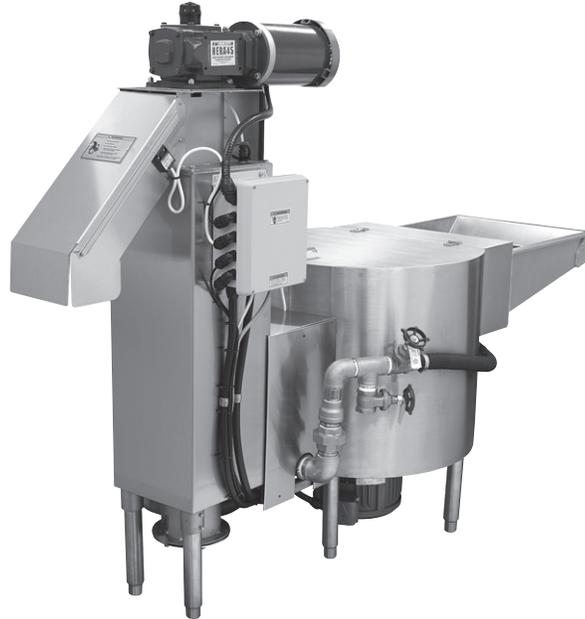

Group 6 – For All Models

- Includes:*
 Magnetic Contactors
 Pushbutton Start and Stop
 Automatic Reversing
 Time Delay for water after shutoff
 Line Disconnect
 Solenoid Valve
 Made from NEMA 4x Enclosure

WASTE EQUIPMENT SYSTEMS

WastePro Series

Listed by UL

WastePro Self-Contained Unit

Hobart waste equipment makes sure foodservice waste is not your problem. There's no doubt about it – cleanup is a messy job, but Hobart can assist this operation with quality-built waste equipment systems.

- Hobart waste equipment turns food scraps and disposable materials into a semi-dry pulp.
- Pulping process washes waste, reducing odors that attract vermin.
- Reduces operating costs due to less water usage, sewer costs and fewer trash pick-ups.
- Reduces foodservice waste volume up to 88%, depending on waste mix.
- Immediate processing of waste materials right in the kitchen, trims handling costs.
- Available in either self-contained or remote systems.

Self-Contained Unit

- The grinding unit/tank and the water press are mounted together in one piece.

Remote Unit

- The grinding unit/tank can be located in one location and the waterpress in another. This would be an ideal alternative when the grinding unit/tank is located in the dishroom and the waterpress discharging the pulped garbage is located in a garbage room elsewhere.

Units are designed to meet customer needs & requirements.

STANDARD FEATURES:

PULPER:

- Pulper Tank:
 - 30" diameter
 - Polished stainless steel tank
- Pulping Disc:
 - 13⁷/₈" diameter stainless steel
- Rotating Shearing Cutters:
 - Investment cast 17-4 stainless steel cutting edges
- Particle Sizing Ring:
 - Investment cast 17-4 stainless steel
- Stationary Shearing Cutters (4 total):
 - Carbide to provide shearing action
- Legs:
 - Tubular stainless steel
 - Adjustable 3³/₄" in either direction
- Water consumption (0-4 GPM with 25 psi line pressure)

FREE STANDING MODELS:

- Tray Assembly:
 - Stainless steel construction
 - Removable splash curtain
 - 25" long tray
- Hinged Cover Plate:
 - Interlocked to prevent operation when opened
- Trough: 9" or 12" wide

UNDERCOUNTER MODELS:

- Cover plate
- Integrated interlock switch
- Trough: 9" or 12" wide

SERVICE REPAIRS (Warranty/Non-Warranty)

- Rapid response time
- Equipment manufacturer trained service technicians
- 24-hour emergency service
- Genuine OEM parts
- 90-day service warranty on all repair work
- Service expertise on most brands of commercial food equipment

DELIVERY AND INSTALLATION

- Single point coordination for equipment installations
- Removal and disposal of existing equipment
- Final hook-ups to existing electric, water, drain, gas, and steam, as required
- Complimentary post-installation equipment performance check
- Flexible scheduling for “non-peak” or “off-hours”
- Devoted installation crew

EXTENDED WARRANTY AGREEMENTS

- Purchased at the time of the original equipment sale
- Ensures continuous service coverage in the second year
- Automatic coverage once the warranty period expires
- 20% discount off standard agreement rates

SERVICE PLANS

- Allows you to “budget” service costs
- Covers standard repairs (parts, labor, travel and standard shipping)
- Flexible payment options – pay up front or over time
- Higher priority for emergency repairs than for non-covered equipment
- Flexible terms and customized coverage options
- Hobart ProSurance™ plans that provide a comprehensive, proactive approach to equipment care that helps prevent breakdowns from occurring in the first place. Includes:
 - ongoing proactive maintenance
 - proactive replacement of known high-wear parts
 - full parts and labor coverage
 - flexible response time options – includes same day response guarantee

PROACTIVE SERVICE (PM)

- Lengthens equipment life and enhances operating efficiency
- Includes regularly scheduled basic maintenance tasks
- Formal checklist used with recommended procedures
- Any required repairs will be identified and can be performed on the spot (if requested)
- Flexible terms – single call or ongoing agreements available

PARTS AND ACCESSORIES

- Locally stocked at Hobart Service offices
- Genuine Hobart, Baxter, Vulcan, Traulsen and Wolf parts available, along with parts for many other brands
- Overnight shipping available nationwide
- Over 50,000 parts in our National Distribution Center ready for overnight shipping
- Service technician trucks equipped with the right parts needed for your equipment
- Order your parts online – The Smartparts® eStore Operators have quick, convenient online access to the highest-quality OEM parts, with accurate order processing, best-in-class service representatives and the largest inventory of OEM parts in the industry.
Visit hobartservice.com/parts

IN-HOUSE SERVICE SUPPORT

- Hobart Service expertise backs up your maintenance personnel with a wide range of programs tailored to your exact needs. As a result, you get the best performance from your people – and from your Hobart equipment. Key elements of the Hobart Service support program include:
 - Technical manuals
 - Parts availability program
 - Preventive maintenance program
 - Local technical support (fees may apply)
 - Recommended parts stocking guidelines
 - Fee-based training programs (limited)

WATER TREATMENT SYSTEMS

- Designed to enhance equipment performance and prolong equipment life
- Hobart Service technicians can provide everything your equipment needs, from installation and service to maintaining cartridge replacements

To reach your local Hobart Service office for Service, Parts, Installations and National Service Programs, contact your local Hobart representative or call:
